

TASK III

STRINGS

Deadline 21st April

Implement all of the below questions using functions

1. Refer the uploaded videos and do the following questions in strings without using inbuilt functions from string.h
 - a. Concatenate two strings
 - b. Search for a word in a text sentence
 - c. Delete a word from the given text sentence

2. Write a use defined function for replacing a pattern (word) with another work in a given text string. (Do not use any inbuilt function of string.h)

Sample input

Input Text He is a bad boy

Pattern to be replaced bad

Text to replace the above pattern good

Output He is a good boy
